

A little
ABOUT US

Our office was built by Dr. James Murphy in 1961. Dr. White grew up in East Brainerd and was a patient of Dr. Murphy's as a child. He even still has his chart from when he was four years old.

After finishing dental school in 1986, Dr. White became an associate of Dr. Murphy's. They practiced together until 1997. Dr. Murphy retired after 40 years of practicing dentistry.

Dr. White continues to practice dentistry in the same location. The practice has served several generations of families as patients. Dr. White is constantly learning so that he can bring patients the best dental care possible. He practices new techniques but still implements the tried and true dentistry as well. He plans to continue practicing as long as he is healthy and able.

We *thank you* for all your continued years of support and for allowing us to care for your dental needs!
